Dear Mr. Eliacin:

As your representative in Congress, I want to thank you for your selfless actions in service to our city following the terrorist attacks on September 11, 2001.

As a first responder, you aided the city through its darkest hours, and never hesitated to respond to the call duty. As a true hero, I proudly write this letter in acknowledgement of the sacrifice you and the other first responders exhibited on that fateful day.

I stand with you to support the healthcare and compensation you and the other first responders need and deserve.

Thank you again for your service to our great city and nation.

Sincerely,
